Homeowners Are In For A Big Surprise...

Heart Normal Artery

Today is the last day of 2013, which means that it is time to announce the TUAW Editor's Choice Awards. This is a compendium of the best of the best, the apps and physical products that we felt best represented the top of a specific category. Some of the products are brand-new, others are old favorites, but all of them earned a place in our list.

You probably have favorites that we didn't include in our list, so feel free to use the comments below to add your own "best of" items for 2013. Happy New Year!

Mac

Accessory -- Audioengine D3 DAC

A relatively reasonable way to improve the audio coming from your Mac, the Audioengine D3 is a high-quality DAC (digital to analog converter) that plugs into a USB port and lets your music come alive. ([\\$189](#)) *Mel Martin*

Peripheral -- Logitech Easy-Switch Bluetooth Keyboard

What's better than a really great backlit Bluetooth keyboard for Mac? How about a backlit Bluetooth keyboard that can also link to two iOS devices (think iPad Air and iPad mini) and switch between the three devices with the push of a button. The [Logitech Easy-Switch Bluetooth Keyboard](#) has it all, and is simply one of the best keyboards I've ever used. ([\\$99.99](#)) *Steve Sande*

Game App -- BioShock Infinite

[BioShock Infinite](#) is a ridiculously fantastic game that bridges first-person shooter mechanics with action and a story that will bend your mind. It's being [offered on the Mac App Store](#) for a rock-bottom price of \$19.99, which will leave you feeling like a thief. Play it, and you won't regret it. *Mike Wehner*
